Application for Qualifying Examination

This form is to be filed at least one month prior to the examination - the second of two required forms.

Student

_____
           name (please print)   *date*

Coursework Requirement

Ph.D. students must complete 8 one-semester graduate courses (96 credit hours), exclusive of thesis, with grades of A or B. One advanced undergraduate math subject and/or relevant graduate subject from another department may occasionally be used as a substitute with the prior approval of the Graduate Co-chairs. Students are expected to maintain at least a B+ average in each semester. Students in Applied Mathematics must satisfy an additional breadth requirement.

List the 8 subjects you intend to use to satisfy this requirement, and list the grades for those already taken.

	Subject Number	Grade		Subject Number	Grade
1.			5.		
2.			6.		
3.			7.		
4.			8.		

Exam Schedule

Indicate the date, time, and location of the Qualifying Examination as agreed upon by the Committee members.
