

The Safest Bets in Crypto have nothing to do with the price

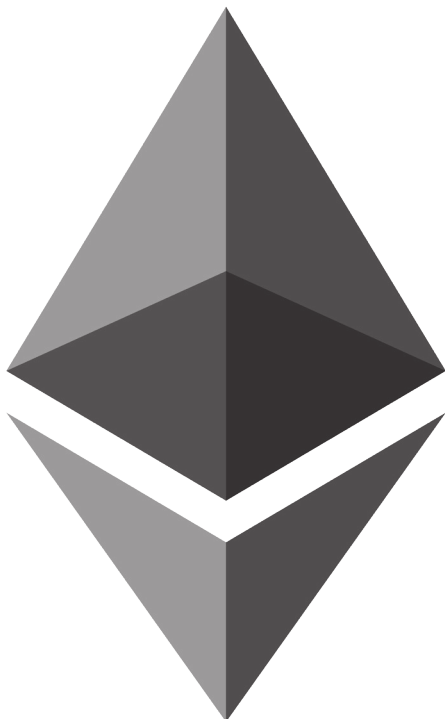

This talk aims to distill signal from the immense noise surrounding the blockchain space.

Albert Ni '08

Course 18 and 6-3
Employee #5 at Dropbox
Advisor to the Ethereum Foundation

Monday, October 15
4:30 – 5:30 pm
Room 4-370

Three “safe bets” will be discussed, followed by Q&A:

- **Bet #1:** If you peel back the blockchain space's rotten surface, you'll find its technical problems and intellectual challenges to be far more interesting than cryptocurrency prices.
- **Bet #2:** The amount of {technical, mathematical} talent in the blockchain space will 100x over the next 24 months.
- **Bet #3:** Blockchain technology's consequences will be substantial, for better and for worse.
