

List of papers of Gabriele Mondello

- “Deligne-Mumford compactifications of moduli spaces of curves with level structures” (2000), Master Degree Thesis.
- “Combinatorial classes on the moduli space of curves are tautological” (2003), PhD Thesis.
- “Combinatorial classes on $\mathcal{M}_{g,n}$ are tautological”, *Int. Math. Res. Not.* **2004**, no. 44, 2329–2390.
- “A remark on the homotopical dimension of some moduli spaces of stable Riemann surfaces” (2006), to appear on *J. Eur. Math. Soc. (JEMS)*.
- “Triangulated Riemann surfaces with boundary and the Weil-Petersson Poisson structure” (2006), submitted paper, also available at MATH.DG/061098.
- “Riemann surfaces with boundary and natural triangulations of the Teichmüller space” (2006), in preparation.
- “Riemann surfaces, ribbon graphs and combinatorial classes” (2007), preprint (to appear on the “*Handbook of Teichmüller theory, Vol.2*”, *European Mathematical Society*).
