18.024 Multivariable Calculus with Theory
Spring 2010

Lecturer: Hamid Hezari, Office hours: TW 3-4 2-306, Email: hezari@math.mit.edu
Lectures: TR 11, F 2 in 2-131

Instructor: Cathy Lennon, Office hours: M 3-4 W 4-5 2-489, Email: clennon@math.mit.edu
Recitation: MW 2 in 2-131

Course Website: http://math.mit.edu/~hezari/18.024.html

Grading: is based on the following:
   1. Problem sets: %25
   2. Two hourly exams, each @ %20: %40
   3. Three-hour comprehensive final exam: %30
   4. Recitation attendance: %5

To pass 18.024 you must pass the final and at least one of the hourly exams. You must also make a reasonable effort on at least seven of the ten problem sets.

Problem sets: Problem sets will be posted on 18.024 website every Friday; due on Fridays at 2pm in 2-108 and returned in recitation on Mondays. Solutions will be posted on Fridays.

Late problem sets: There will be no extensions on the due dates for problem sets. Really. None! If you want to tell us a reason that why one is missing we may take this into account in assigning grades at the end of the term.

Hourly exams:
   • Exam 1: Friday March 5th @2pm in 2-131
   • Exam 2: Friday April 16th @2pm in 2-131

Free tutoring program: 2-102 MTWR: 3-5 and 7:30-9:30 PM. (Starts second week.)
