NOTES FOR AND ON THE LECTURES

RICHARD MELROSE

ABSTRACT.

The seminar will meet TR12:30-2, in 4-251.

Here is what I have in mind, although my expectations may be unreasonable.

February 12 Chris Kottke:- Semiclassical families of smoothing operators on a manifold.

February 14 Jacob Bernstein:- Odd semiclassical quantization on a fibration.

February 19 Fang Wang:- Even semiclassical quantization.
