Term project

• When submitting your project proposal (Feb. 22), use this template:

  • **Project title**

  • **Project background:** Does it relate to your work in another field (e.g. your thesis)? If yes, briefly outline the questions and goals of your work in the other field.

  • **Questions and Goals:** Briefly describe the questions you wish to investigate in your project. What are your expectations?

  • **Plan:** Which language do you plan to program in? Do you intend to use special software? Does your project work relate to the work of other people at MIT?
