

**Tomasz S. Mrowka**

**Curriculum Vitae**

September 2024

**Current Address:**

Department of Mathematics rm 2-440  
Massachusetts Institute of Technology  
Cambridge, MA 02139  
Phone:(617) 253-2857 office  
email: mrowka@math.mit.edu

**Personal Data:**

Born Sept 8, 1961. US citizen.

**Research Interests:**

Partial differential equations, differential topology of three and four dimensional manifolds, knot theory, mathematical aspects of gauge theories.

**Education:**

Ph.D. in Mathematics, University of California, Berkeley, 1988

Thesis title, "A Local Mayer Vietoris Principle for Yang-Mills Moduli Spaces" written under the direction of Prof. C.H. Taubes.

S.B. in Mathematics, Massachusetts Institute of Technology, 1983.

**Positions Held:**

Fellow, Radcliffe Institute of Advanced Studies, class of 2013.

Singer Professor of Mathematics, Massachusetts Institute of Technology, 2009-2017.

Simons Professor of Mathematics, Massachusetts Institute of Technology, 2006-2009.

Member, Institute for Advanced Studies, 2003-2004 academic year.

Professor of Mathematics, Massachusetts Institute of Technology, 1996-2006.

Visiting Professor of Mathematics, Massachusetts Institute of Technology, Fall 1995.

Clay Visiting Professor of Mathematics, Harvard University, Spring 1995.

Professor of Mathematics, California Institute of Technology, 1994-1996.

Associate Professor of Mathematics, California Institute of Technology, 1992-1994.

Visiting Assistant Professor of Mathematics, California Institute of Technology, 1991-1992.

Szego Assistant Professor of Mathematics, Stanford University, 1989-1991.

Research Fellow, Mathematical Sciences Research Institute, 1988-1989.

**Awards and Honorary Societies:**

Leroy P. Steele Prize for seminal research contribution from the AMS, joint recipient with P. Kronheimer, 2023.

Plenary Speaker joint with Peter Kronheimer, International Congress of Mathematicians Rio de Janeiro, Brazil Aug 2018.

Elected National Academy of Sciences, class of 2015.

Fellow of the Radcliffe Institute of Advanced Studies, class of 2013.

Doob Prize of the AMS, joint recipient with P. Kronheimer, 2011.

Guggenheim Fellow, class of 2010.

American Academy of Arts and Sciences, class of 2007.

Oswald Veblen Prize in Geometry of the AMS, joint recipient with P. Kronheimer, 2007.

Participant 5<sup>th</sup> Annual NAS Symposium on the Frontiers of Science Nov 4-6 1993. Beckman Center, Irvine CA.

Sloan Foundation Fellow 1993-1995.

National Young Investigator 1993-1998.

### **Joint Managing Editor for:**

Journal of Symplectic Geometry.

Advances in Mathematics.

### **Editorial Board Memberships:**

Mathematics Research Letters. 1994-present

Geometry and Topology. 1997-present

Les Publications Mathématiques de l'IHES 2011-2015

Journal of the American Mathematical Society.

Managing Editor 2010-2016

Associate Editor 2006-2010

### **Department Service:**

Head of the Department, Massachusetts Institute of Technology, Nov. 2014-June 2017

Interim Head of the Department, Massachusetts Institute of Technology, June 2014- Nov. 2014

Chair of the Pure Mathematics Committee, Massachusetts Institute of Technology 2004-2009 and 2011-2014 academic years

Chair of the Department of Mathematics Graduate Student Committee, Massachusetts Institute of Technology, 1999-2002 academics years.

### **University Level Service:**

MIT Faculty Complaint Review Panel, 2023-

MIT Committee on Discipline, 2001-2003. Committee on Graduate School Programs, 1999-2002.

Chair of the Graduate Student Committee, Massachusetts Institute of Technology, 1999-2002 academics years.

### **Service to the Community**

Sloan Research Foundation Fellowship in Mathematics selection committee. 2011-2016

AMS Steele Prize selection committee. 2012-2014. Chair 2014.

Visiting Committee for the School of Mathematics at Institute for Advanced Study, Princeton NJ. March 14-16 2008

Co-organizer with Peter Ozsváth of the The Park City Mathematics Institute summer school in Low Dimensional Topology, 2006

Japanese-American Frontiers of Science Planning Group Committee Member for 1998, 1999 and 2000 meetings. Sponsored by the National Academy of Science and the Japan Science and Technology Corporation.

National Science Foundation Committee of Visitors for the Division of Mathematical Sciences. Approx 1994 and 1998.

**Ph. D. Students**

Name	Institution	Year
Yongbin Ruan	University of California, Berkeley	1991
Christopher Herald	University of California, Berkeley	1992
Graham Taylor	University of California, Berkeley	1994
Baozhen Yu	University of California, Berkeley	1994
Qing Yang	California Institute of Technology	1999
Carmen Young	Massachusetts Institute of Technology	2000
Anda Degeratu	Massachusetts Institute of Technology	2001
Edward Goldstein	Massachusetts Institute of Technology	2001
Yue Lei	Massachusetts Institute of Technology	2001
Lenhard Ng	Massachusetts Institute of Technology	2001
Aleksey Zinger	Massachusetts Institute of Technology	2002
Eun Soo Lee	Massachusetts Institute of Technology	2003
Benoit Charbonneau	Massachusetts Institute of Technology	2004
Lawrence Guth	Massachusetts Institute of Technology	2005
Fangyun Yang	Massachusetts Institute of Technology	2007
Maksim Lipyanskiy	Massachusetts Institute of Technology	2008
William Lopes	Massachusetts Institute of Technology	2010
Bernard Mares	Massachusetts Institute of Technology	2010
Timothy Nguyen	Massachusetts Institute of Technology	2011
Steven Sivek	Massachusetts Institute of Technology	2011
Tirasan Khandawit	Massachusetts Institute of Technology	2013
Lucas Culler	Massachusetts Institute of Technology	2014
Francesco Lin	Massachusetts Institute of Technology	2016
Yakov Berchenko-Kogan	Massachusetts Institute of Technology	2016
Sherry Gong	Massachusetts Institute of Technology	2018
Piotr Suwara	Massachusetts Institute of Technology	2020
Zhenkun Li	Massachusetts Institute of Technology	2020
Jesse Freeman	Massachusetts Institute of Technology	2021
Donghao Wang	Massachusetts Institute of Technology	2021
Greg Parker	Massachusetts Institute of Technology	2022
Deepraj Bhat	Massachusetts Institute of Technology	2024
Mary Stelow	Massachusetts Institute of Technology	Expected 2025

**Postdoc Mentees**

Name	Institution	Year
Peter Ozsvath	California Institute of Technology	1992-1994
Matilde Marcolli	Massachusetts Institute of Technology	1997-2000
Matthew Hedden	Massachusetts Institute of Technology	2006-2008
Yi Ni	Massachusetts Institute of Technology	2007-2009
Jonathan Bloom	Massachusetts Institute of Technology	2011-2014
Bohua Zhan	Massachusetts Institute of Technology	2014-2017
Linh Truong	Massachusetts Institute of Technology	2016-2016
Jianfeng Lin	Massachusetts Institute of Technology	2016-2019
Yu Pan	Massachusetts Institute of Technology	2017-2019
Matthew Stoffregen	Massachusetts Institute of Technology	2017-2019
Maggie Miller	Massachusetts Institute of Technology	2019-2020
Irving Dai	Massachusetts Institute of Technology	2019-2020
Lisa Piccirillo	Massachusetts Institute of Technology	2019-2020
Jonathan Zung	Massachusetts Institute of Technology	2022-2025
Joshua Wang	Massachusetts Institute of Technology	2023-2024

### Invited Lectures (Incomplete List):

- "A local Mayer-Vietoris Principle for Yang-Mills Moduli Spaces" and "Non-Complex Irreducible Four Manifolds", Topology of Four Manifolds Conference, McMaster University, Hamilton Ontario Canada, July 1990.
- "Embedded Surfaces in Four-Manifolds" Michigan Topology Conference, Michigan State University, East Lansing Michigan, May 1991.
- "Embedded Surfaces in Four-Manifolds," Meeting of the Western Section of the American Mathematical Society Los Angeles CA, November 1991.
- Southern California Topology Conference, California Institute of Technology, Pasadena CA, March 7, 1992.
- "Spectral Flow and the Maslov Index," Taniguchi symposium on the geometry and topology of low dimensional manifolds. Kyoto Japan, January 8-13 1993.
- "The Structure of Donaldson's Polynomial Invariants," Georgia Topology Conference, Athens Georgia, July 1993.
- "The Structure of Donaldson's Polynomial Invariants," 1994 International Congress of Mathematicians, 45 minute invited address in the geometry section. Zurich Switzerland, August 3-11, 1994.
- "The Thom Conjecture," Southern California Topology Colloquium at UCLA. Los Angeles CA, December 10 1994.
- "The Seiberg-Witten Invariants and the Topology of Embedded Surfaces in Four-Manifolds," Conference on the mathematical developments stemming from the Seiberg-Witten invariants. Princeton NJ, February 12-13 1995.
- "The Seiberg-Witten Invariants and the Topology of Embedded Surfaces in four-manifolds," Tenth Annual Geometry Conference. Stony Brook NY, April 29-30 1995.
- "The Seiberg-Witten Invariants and the Topology of Embedded Surfaces in Four-Manifolds," The Arbeitstagung, Max Planck Institute for Mathematics. Bonn Germany, June 14-20 1995.
- "The Seiberg-Witten Invariants and the Differential Topology of Four-Manifolds," NATO advanced study institute on gauge theory and symplectic geometry. Montreal, Canada July 1-15 1995.
- "Gauge Theory and Low Dimensional Topology: Past, Present and Future. I, II & III" Marston Morse Lectures at the Institute of Advanced Studies, Princeton, NJ March 28,29 and April 1,1999.
- "Gauge Theory and Low Dimensional Topology".  $\omega^9$  Conference in Symplectic Geometry, IST Lisbon Portugal June 22, 1999. Distinguished Visiting Professor Lecture Series at Stanford University, January 2000.
- "What Do We Know About Four Dimensional Manifolds?." Members lecture series. Institute of Advanced Studies, Princeton NJ. Nov 3, 2003.
- "On Floer Homology for Seiberg-Witten Monopoles." Informal Lecture. Institute of Advanced Studies, Princeton NJ. April 27, May 3, May 19, May 26 2004. "What is Floer homology and what is it good for?" New York University Colloquium, New York NY, November 20, 2004.
- "Floer's homology groups, Witten's conjecture and three manifold topology" University of Pennsylvania Colloquium, Philadelphia CA, Jan 21, 2004.
- "Gai + (Thurston-Eliashberg) + Witten + (Feehan-Leness) + Floer + Giroux + Eliashberg = Property P" Rutgers University Colloquium, New Brunswick NJ, March 21, 2004
- "From foliations of three manifolds to representations of their fundamental groups", Princeton University Colloquium, Princeton NJ April 7, 2004.

- "Floer's Instanton Homology and Representations of Three Manifold Fundamental Groups" and "Witten's Conjecture and Property P", Joseph Fels Ritt Lectures at Columbia University, April 15 and 16 2004.
- "Progress and Prospects in Floer Homology for Three Manifolds? and ?Knots and DNA,? 23rd Friends of Mathematics Lecture at Kansas State University, Manhattan KS. April 26, 2005.
- "Progress and Prospects in Floer Homology for 3-manifolds," The Seventh Andrzej Jankowski Memorial Lecture. Kraków Poland, June 27 2005.
- "What do we know about four dimensional manifolds?" McGill University Colloquium. Montreal Canada March 9, 2007.
- "Reflections on Homological Invariants for Knots," Address, Joint Polish Mathematical Society- American Mathematical Society meeting , Warsaw Poland, August 1, 2007 .
- "Reflections on Homological Invariants for Knots," University of Michigan Colloquium, Dec 4, 2007.
- "Reflections on Homological Invariants for Knots," Michigan State University Colloquium, Dec 6th, 2007
- "Monopoles, closed Reeb orbits and spectral flow: Taubes' work on the Weinstein conjecture." 2008 Clay Research Conference. Bartos Theater MIT. Cambridge MA May 12-13, 2008.
- "Instanton Invariants for Knots," Viro 60<sup>th</sup> Birthday Conference. Mittag Leffler Institute, Stockholm Sweden, May 24th 2008.
- "Introduction to the Seiberg-Witten equations" and "Introduction to the Seiberg-Witten-Floer homologies II." Hot Topics: Contact Structures, Dynamics And The Seiberg-Witten Equations In Dimension 3. MSRI. Berkeley CA. June 09, 2008 - June 13, 2008
- "Lectures on Seiberg-Witten Floer Homology." ETH, Zurich Switzerland. July 2008.
- "Knots, Sutures and Excision." Holomorphic Curves: Algebraic Structures and Geometric Applications. Stanford University. Palo Alto CA. Aug 27, 2008 "Knots, Sutured Manifolds and Instantons," University of Indiana Colloquium. Bloomington Indian, Jan 23, 2009.
- "Knots, 3-manifolds and gauge theories", Kuwait Foundation Lectures, Department of Pure Mathematics and Mathematical Statistics, Cambridge University, Cambridge England. March 3, 2009.
- "Knots, 3-manifolds and Gauge Theories," University of Massachusetts, Amherst Colloquium. Amherst, MA. April 9, 2009.
- "Instantons and the Alexander Polynomial." 2009 Georgia International Topology Conference. University of Georgia, Athen GA. May 28, 2009.
- "Knots, Sutures, Floer and Khovanov." Ecole Normal Supierior. Lyon, France. June 22, 2009.
- "Using Instantons to Show that Khovanov Homology Detects the Unknot." Colloquium, Duke University. Durham North Carolina. Oct 20, 2009.
- "Introduction to Instanton Floer Homology and It's Relationship to Khovanov Homology." MSRI, Berkeley CA. Jan 27, 2010.
- "Khovanov Homology is an Unknot Detector I & II", MSRI, Berkeley CA, February 16 &19, 2010.
- "How to Detect Unknottedness using Instantons and Khovanov Homology", MSRI Evans Lecture Series, UC Berkeley, Berkeley CA, February 22, 2010.
- "Khovanov Homology is an Unknot Detector." Simons Center for Geometry and Physics. Stonybrook NY. June 22, 2010.
- "Khovanov Homology is an Unknot Detector." Knots in Poland III. Bedlow Poland. Aug 2, 2010.
- "A Brief History of Unknot Detection." Colloquium UT Austin. Austin TX. Nov 29, 2010.

- "Khovanov Homology as seen by Instantons." Kaleidoscopic View of Modern Mathematics, IHP and IHES. Paris France. Jan 9, 2011.
- "Quantum Filtration on Instanton Knot Homology", Banff Mathematics Research Station. Banff Alberta CA. Mar 24 2011.
- "Filtrations on Instanton Knot Homology." Fields Institute. Toronto CA. May 15, 2011.
- "Filtrations on Instanton Knot Homology." Simons Center for Geometry and Physics. Stonybrook NY. June 15, 2011.
- "Ramussen's s-Invariant via Instantons and Other Remarks on Khovanov Homology as Seen by Instanton Floer Homology." Joint IAS-PU Symplectic Geometry Seminar. Institute for Advanced Studies. Princeton NJ. Dec 2, 2011.
- "Knot theory as seen by Geometry, Physics and Algebra.", Dipartimento di Matematica e Informatica, Universita' di Trieste, Trieste Italy, 7 July 2011.
- "Knots and Instanton Floer Theory." ICTP, Trieste Italy, July 13, 2011.
- "Instantons, Knots and Khovanov", 1 week lecture course at Centre for Quantum Geometry of Moduli Spaces, Aarhus University, Aarhus Denmark, August 1-5, 2011.
- "Instantons and their impact in low dimensional topology", Graduate student lecture, Texas Geometry and Topology Conference at the University of Houston, February 17-19, 2012.
- "Instanton Floer homology for trivalent graphs." Texas Geometry and Topology Conference at the University of Houston, February 17-19, 2012.
- "Instanton Floer homology for trivalent graphs." Cornell Topology Festival, in honor of Bill Thurston. May 6, 2012.
- "Webs, Foams and Instantons." Lehigh Geometry and Topology Conference May 27, 2012.
- "Webs, Foams and Instantons." CAST Summer School, Renyi Mathematics Institute, Budapest. July 11-13, 2012.
- "Webs, Foams and Instantons." Max Plank Institute for Mathematics, Bonn Germany. June 04, 2013.
- "Webs, Foams and Instantons." Akbulut-Ruberman-Savaliev Focused Research Group Workshop Miami FLA. Mar 12-13, 2013.
- "Manolescu's Work on the Triangulation Conjecture." Akbulut-Ruberman-Savaliev Focused Research Group Workshop Miami FLA. Mar 13, 2013. "A Survey of Application of Floer Homology to Three Manifold Topology." Univ Ill Urbana Champagne. Nov 14, 2013.
- "Webs, Foams and Instantons I, II, & III" Geometric Analysis in Geometry and Topology 2014, Tokyo University of Science. Tokyo Japan. Oct 28-30 2014.
- "Gauge Theory and the Four Color Theorem." Geometry and Topology Seminar, MIT. Sept 28 2015.
- "The Four-Color Theorem and an Instanton Invariant for Spatial Graphs II." Institute for Advanced Studies, Princeton NJ. Oct 13, 2015.
- "The Four-Color Theorem and an Instanton Invariant for Spatial Graphs." Perspectives in topology and geometry of 4-manifolds. Inter University Center, Dubrovnik Dubrovnik, Croatia, June 6-10, 2016.
- "An approach to the four color theorem via gauge theory and three manifold topology." Pacific Institute of Mathematical Sciences UCLA, March 7, 2017.
- "An approach to the four color theorem via Donaldson-Floer theory", Symplectic geometry - celebrating the work of Simon Donaldson, Issac Newton Institute for Mathematical Science-Clay Mathematics Institute, Cambridge University, Cambridge UK. Aug 13, 2017.
- "Gauge theory of Spatial Graphs II", Georgia Topology Conference, June 2, 2017.

"Applications of gauge theory to 3-dimensional topology and maybe to combinatorics" Roeber Lecture, Washington University, St. Louis Missouri, March 6, 2018.

"Deformations of instanton Floer homology of knots and webs", Princeton Summer School in Low-dimensional Topology and Symplectic Geometry, Princeton University, Princeton NJ, June 28, 2018

"Deformations of instanton Floer homology of knots and webs", The topology and geometry of low-dimensional manifolds: a celebration of the mathematics of Bob Gompf, UT Austin, Austin Texas, July 14, 2018.

"Lectures on Gauge Theory for Webs and Foams." 4 Lectures, Gauge theory and applications, Universität Regensburg, Regensburg Germany July 19-20, 2018.

"Deformations of instanton Floer homology of knots and webs", Gauge theory and applications, Universität Regensburg, Regensburg Germany July 23, 2018.

"Deformations of instanton Floer homology of knots and webs", Geometry seminar, Brown University Oct 10, 2018

"Applications of gauge theory to the topology of three manifolds and maybe combinatorics", Clifford Lectures Tulane University January 23 -26, 2019

"Floer homology", Park City Mathematics Institute, Graduate Summer School, July 16-19, 2019

"Bar Natan in the Wild", Clay Mathematics Institute, Oxford University, Oxford England, Jan 6, 2020

"Instantons, knots and knotted graphs", McKnight-Zame lecture University of Miami, Feb 27, 2020

"Complex curves coming from Instanton Floer homology of product orbifolds" AMS-EMS-SMF joint meeting, University of Grenoble, July 18, 2022.

"More deformations of the cohomology ring of the moduli space of representations of the fundamental group of a surface coming from instantons." June 28, 2022, ICTP, Trieste Italy.

"Gauge theory on Foams I, II, & III", (jointly with Peter Kronheimer) MIT, May 17, 18, 19, 2023

30 Years of working with Peter", Gauge Theory and Topology, in celebration of Peter Kronheimer's 60 birthday, Clay Math Institute, Oxford University, July 27, 2023.

"A variant of Instanton Floer Homology", 2024 Simons Collaboration on New Structure in Low Dimensional Topology. Simons Foundation, NY NY Mar 28, 2024

"A variant of Instanton Floer Homology", Workshop on Low Dimensional Topology and Gauge Theory, Miami Beach FLA. April 11, 2024

"Forty years of Four Manifolds" Myhill Lectures, University of Buffalo, Amherst NY, April 21-22-32 2024.

## Publications

### Books

1. Morgan, J. W., T. Mrowka, and D. Ruberman (1994). *The  $L^2$ -moduli space and a vanishing theorem for Donaldson polynomial invariants*. Monographs in Geometry and Topology, II. Cambridge, MA: International Press, pp. ii+222.
2. Kronheimer, P. B. and T. S. Mrowka (2007). *Monopoles and three-manifolds*. Vol. 10. New Mathematical Monographs. Cambridge: Cambridge University Press, pp. xii+796. <http://dx.doi.org/10.1017/CB09780511543111>.
