

# MIT PRIMES

## Program for Research In Mathematics, Engineering, and Science *for high school students from Greater Boston*

Student Christina Chen at the PRIMES conference at MIT in May 2011

- work with MIT researchers on exciting unsolved problems in mathematics or computer science for one year
- meet other students who love mathematics and computer science
- learn cool math and new programming languages
- use computers to do research
- solve problems in medical informatics, complexity theory, and robotics
- write a research paper and give a conference talk
- submit your project to science competitions

*Application deadline is December 1, 2012*
