

# Topology Seminar

**Sander Kupers**

of Harvard University will be speaking on

## Diffeomorphisms of disks

on February 3 at 4:30 in  
MIT Room 2-131

I will explain joint work with Oscar Randal-Williams on recent progress in computing the rational homotopy type of the topological group of diffeomorphisms of even-dimensional disks, and situate these results in the context of previously known results and what we expect the answer to be.
