# $18.02 \rho \quad$ Problem Set 7 <br> (Due Tuesday, November 8, 11:59:59 PM) 

Part I (100 points)<br>HAND IN ONLY THE UNDERLINED PROBLEMS<br>(The others are some suggested choices for more practice.)<br>EP $=$ Edwards and Penny; $\mathrm{SN}=$ Supplementary Notes (most have solutions)

Vector fields, curl, divergence
Reading: EP §15.1, SN §§V1, V8
Exercises:
EP $\S 15.1 \underline{11-14}, \underline{22}, 28,31, \underline{32}, 34,36, \underline{37}, \underline{38}, 39$
SN §6A 4

Line integrals in the plane and in space
Reading: EP §15.2, SN §V11
Exercises:
EP $\S 15.25,8, \underline{11}, 12, \underline{13}, \underline{18}, \underline{31}, 33$
SN $\S 6 \mathrm{D} \underline{2}, 6$

Path independence and conservative fields
Reading: EP §15.3, SN §§V2, V11
Exercises:
EP $\S 15.3 \underline{3}, 6,11,30, \underline{31}, \underline{35}$

## Gradient fields and potential functions

Reading: EP §15.3, SN §V12
Exercises:
EP §15.3 17, 23, 25, 34
SN $\S 4 \mathrm{C} 2, \underline{3}$
SN $\S 6 \mathrm{E} \underline{4}, \underline{6}$
