

# The lifecycle of educational software tools

**Step 1.** We have a new tool, which is totally optional. You can keep your workflow as it is. And we'll help you, no matter how much or how little of it you want to use!

**Step 2.** We have a new tool, whose features you should definitely look at adopting. We'll gradually discourage you from keeping your existing workflow. And we offer help with the transition!

**Step 3.** We have a new tool, which is the only one we really support. You have to design your workflow around that. And there are many helpful videos so you can teach yourself!

**Step 4.** The new tool won't be receiving the fixes you requested. Just use the workarounds that you've integrated into your workflow. But on the horizon there's a completely different tool, which we can give you a preview of!
